

TREASURE TRACKER

One of the most active areas of probate courts is with disputed heirlooms! Itemize personal items here so that your wishes will more likely be followed. This could save aggravation, family feuds and court cases and their costs in the future.

Not every column needs to be filled in, but focus on the item, its location, and to whom assigned. Keep this list safe. Make copies of it and distribute it to family members. It may even be helpful to put a sticker on the item with the information about the assignee.
